Automating Shipping and Mailing since 1975

2. Verify that your product version is eligible for the update!
3. IMPORTANT: **EXIT** the Postal Consultant software BEFORE installing this update.
4. Download the update by clicking on the appropriate link on the website Download page. The website provides a ZIP format for the download as an alternate.
5. Place the .EXE Update file anywhere on the computer that runs the Postal Consultant software. If you downloaded the ZIP format, extract the EXE file from it.
6. Using Windows Explorer, double-click the .EXE Update file to run it. It will first verify that you are running an eligible version of Postal Consultant software. Follow the on-screen instructions. The update program will then install and update your system.
