- Update File Name: G283402Up.EXE
- Update Version: 8.34.02
- Date Published: March 2, 2010
- New File Size (exe): 28,504 KB (8.34.02)
- New File Date: March 2, 2010
- Old File Size (.exe): 28,476 KB (8.34.01)
- Old File Date: January 19, 2010
- Document File Name: G2Notes83402.doc

Change Descriptions:

- G2 WebView install added to MCMG2 folder
- DHL labels have been redesigned to add additional elements required by DHL.
- Extend International Commodities unit weight to 2 decimal places
- Allow customer to export date only
- Shipping Charges now show on PAR Report
- USPS Priority Mail Flat Rate Box renamed to USPS Priority Mail Medium Flat Rate Box
- Custom Carrier shipments can be recorded with a rate of zero dollars
- Handling Charge "round-up" utility added for Priority Mail Commercial Base

Fixes:

- Corrected issue when using DBI and processing FedEx shipments causing an error in some cases – **Event 574**

Title: G2 Family Version 8.34.02

Automating Shipping and Mailing since 1975

- Corrected issue with FedEx Ground shipments to Canada not processing in some cases - **Event 581**
- Corrected issue with Dazzle not cleansing addresses when users were using Order Download in some cases – **Event 607**
- Corrected issue with missing zone for St Christopher for FedEx – **Event 625**

Important Notes:

- **If an IS/IM meter is in use the user must restart the IS/IM Meter Server after the update is complete. The user is prompted to do so as well at the end of the installation**
- **Endicia/Dazzle users – An international phone number must now be entered in the Dazzle application to process international mail. To do this launch Dazzle then click the Postage button, then click Options. Click the International Postage tab (if there is no International Postage tab look for a Sender Information tab). Click the OK button in the pop-up window (if one pops up), then enter a phone number in the phone number box then click OK and close out of the Dazzle application. ****NOTE** - This is a requirement for using Endicia to print USPS postage.****

Warnings: **NONE**

Limitations: **NONE**

Instructions

1. Insure that your software is eligible for the update. Check the [Quick Details](#) section of this document for eligibility information.
2. Verify that your product version is eligible for the update! To check, log-in to the G2 application and click on the Information button on the home screen. Compare the version number of your software with the eligible version of this update.
3. **IMPORTANT: EXIT** the G2 application **BEFORE** installing this update.
4. Download the update by clicking on the appropriate link on the website Download page. The update is provided in a ZIP as an alternate.
5. Place the .EXE Update file anywhere on the computer that runs the G2 software. If you downloaded the ZIP format, extract the EXE file from it.
6. Using Windows Explorer, double-click the .EXE Update file to run it. It will first verify that you are running an eligible version of G2 software. Follow the on-screen instructions. The update program will then install and update your system.
